Art Unit: 2826

DETAILED ACTION

1. The amendment filed on 07/28/03 has been entered.

Drawings

2. Replacement drawing sheets 1-4, filed on 07/28/03, have been approved by the examiner and entered into the case.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1-13 as amended require a device with at least three high voltage regions, they are identified in claim 1 as "a first high voltage region" (introduced in line 2), "a second high voltage region" (introduced bridging lines 6-7), and a third high voltage region, introduced simply as "a high voltage region" in the last line of claim 1. As filed, the application does not disclose a device having all the

limitations of claim 1 including the three high voltage regions specified in claim 1 as amended.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 20 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 20 recites the limitation "said second high voltage region" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claim 21 recites the limitation "said second high voltage region" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

5. Claims 14-19 are allowed over the references of record because none of these references disclosed or can be combined to yield the claimed invention such as an integrated power device comprising a power circuit, component, or device comprising a first high-voltage region, a low-voltage region, first and second unidirectional elements connected together between the first high-voltage region and the low-voltage region to define a common intermediate node, a biasing circuit connected between the common intermediate node and a second high-voltage region, the biasing circuit comprising a

Art Unit: 2826

contact pad electrically connected to the common intermediate node, an electrical contact region formed on the second high-voltage region, an electrical connection line having a first end connected to the contact pad and a second end connected to the electrical contact region, an edge structure formed in the power circuit and comprising an equipotential annular region surrounding the power circuit, the contact pad of the biasing circuit being set on top of the equipotential annular region, and a control circuit that includes the second high-voltage region. The just-recited limitations are common to all of claims 14-19.

6. Claims 20 and 21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112 set forth in this Office action.

Response to Arguments

7. Applicant's arguments with respect to claims 1-13 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2826

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
